

This listing of claims will replace all prior versions and listings of claims in the present application.

Listing of Claims

1. (Currently Amended) An anhydrous chemical composition for application to the skin comprising a mixture of at least 50% by weight of total composition of the processed Dead Sea mineral particles in a continuous all-natural carrier medium being an oil wherein said Dead Sea mineral particles do not rapidly settle out of said carrier medium.
2. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 16 wherein said continuous all-natural carrier medium comprises palm oil.
3. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 2 wherein said continuous all-natural carrier medium comprises soybean oil.
4. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 3 wherein said continuous all-natural carrier medium comprises olive oil.
5. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 4 wherein said continuous all-natural carrier medium comprises jojoba oil.
6. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 5 wherein said continuous all-natural carrier medium comprises beeswax.

7. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 6 wherein said continuous all-natural carrier medium comprises jojoba wax.
8. (Currently Amended) anhydrous The chemical composition for application to the skin of Claim 7 wherein said continuous all-natural carrier medium comprises cashew husk oil ethoxylate.
9. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 8 wherein said continuous all-natural carrier medium comprises coconut oil.
10. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 9 further comprising Vitamin E oil.
11. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 16 further comprising an essential oil blend.
12. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 11 wherein said essential oil blend comprises lavender.
13. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 12 wherein said essential oil blend comprises rosewood.
14. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 13 wherein said essential oil blend comprises chamomile.
15. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 14 wherein said essential oil blend comprises calendula.
16. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 1 wherein said processed Dead Sea particles are less than about 10

mesh and less than about 1.0 mm size granularity.

17. (Currently Amended) The anhydrous chemical composition for application to the skin of Claim 11 wherein said essential oil blend comprises lavender, rosewood, chamomile, and calendula.
18. (Previously Presented) Processed Dead Sea minerals, 100% of said processed Dead Sea minerals comprising granularity of less than about 10 mesh and less than about 1.0 mm size granularity.
